

# Security Caps

## Patented design helps prevent license plate and frame theft

*Our research shows that consumers are looking for license plate anti-theft fasteners, but currently available hardware does not meet their needs. Our Security Caps address their desire for a more universal fit and rust-proof construction.*

- German-made from solid stainless steel, for years of exterior use and a substantial one piece appearance.
- Conceals license plate hardware from tampering, accommodates screw heads up to half of an inch.
- Special hand tool and installation guide included.
- Comes in hang display packaging suitable for retail sale, or can be added to any of our license plate frames, in lieu of hardware hider caps.

U.S. Patent No. D 621254 & 8,051,690  
European Design No. 001132054-0001-0003
